VILLAGE OF GOSHEN, NEW YORK:

ZONING BOARD OF APPEALS

-----x

In The Matter Of:

JEFFREY SHERWIN, Applicant
To Consider an Appeal from the
Village Building Inspector's Determination
Affecting Premises Section 104, Block 1, Lot 2.

November 21, 2013 276 Main Street Goshen, New York 7:30 p.m.

BEFORE:

WAYNE STAHLMANN, Chairman
NEIL FRISHBERG
JOHN STROBL
GAR CLARK
LYNN CIONE

ALSO PRESENT:

JAMES G. SWEENEY, ESQ.
TAYLOR M. PALMER, ESQ.
GREGORY G. HOOVER, ESQ.

- PROCEEDINGS -

MR. STAHLMANN: Thank you all for coming. We are going to pick up where we left off. So, the first thing we are going to do is the C.H.

Development and finish that up.

So, this is the application of Jeffrey Sherwin. Property in question - McNally Street, tax lot 104-1-1.2.

Let's do it this way - I am going to open the floor up to both of you gentleman, and maybe I am going to let you start, Mr. Sweeney. I know we have Mr. Nuzzolese here, I want to get him in but I will let you start.

MR. SWEENEY: I will try to be brief. What I tried to do is articulate my legal position and my client's legal position in a letter, a rather lengthy letter, that I sent to you and you have had before that your counsel's correspondence in that respect, and I tried to lay out what I think are the essential items that you have to decide tonight - or whenever you do decide - and what I am going to do is I tried to really boil it down - and lawyers have a hard time doing this - boil it down to three or four questions that you got to look at and answer one way or the other and this is kind of

in the way of a jury verdict, a sheet, and it helps focus everybody on what I think are the important issues. I want to read them for you and then I will step back because I think it encapsulates everything and you have to decide these questions, there are four questions. You have to decide all of these questions in the affirmative if you are going to affirm the builder inspector's determination of October 2nd that New McNally Street is by way of prescription or public use over ten years a public street and warrant the issuance of the building permit that is issued. And what I've done is try to summarize this in what I said, and I said that the first: You must find that New McNally Street has been used by the general public and not just the invitees of the abutting owners, the school and the Farley's, and it has been used as a public street for ten years, yes or no; and only if you answer question number one in the affirmative you must then find that the public use and the village's maintenance of that street was adverse or hostile to the interest of the real owner of the street, the Village, and not with its consent or acquiescence, yes or no. And only if

the answers to the first two questions that I pose are in the affirmative then you must find that the lot in question has actual frontage on New McNally Street, yes or no. Those to me distill the essential questions that are before you.

If we are to proceed as the building inspector has proposed that this is a street by prescription. public use, you must make those determinations. Ιf the street has not been used by the public, the general public, everybody, as a public street for over ten years, then that fails and if that fails the whole house of cards fails. If you decide that it has been used by the public for ten years, then you must decide whether or not it has been used in a way that is hostile, adverse, to the interest of the owner. Remember that the owner is the Village. Has the use by the general public - if you so decide that way - been adverse to the interests of the Village? And, very important, has the maintenance or dominion - as we call it as lawyers - over that street been adverse to the public or has it been by its acquiescence? And I am going to suggest to you that those are impossible answers, they are both by the acquiescence of the Village.

- PROCEEDINGS -

And lastly - and you must look at the diagram I submitted to you which is based on the survey which was submitted in support of the application - does this street, McNally Street, have actual - and I mean actual, touch by touch - frontage on McNally Street. If it does not, the permit cannot be issued. That's the law.

So, those are the issues that you have to decide - one, two, three, four.

MR. FRISHBERG: Your issue number three, adverse use or adverse maintenance.

MR. SWEENEY: Maintenance.

MR. FRISHBERG: That is with your position that this is an easement by prescription and we have to apply the easement by prescription factors, correct?

MR. SWEENEY: Yes.

MR. FRISHBERG: And that is not in the statute and that argument is on what you want us to look at, you want us to look at the title of the statute and because the easement by prescription factors are in the statute but it does say use of prescriptive easement is in the title of the statue and that you argue that you should use the easement

by prescription factors. Am I wrong? If I am wrong, tell me.

MR. SWEENEY: Well, I disagree what I think you are leading to. The title of the section in the statute is use by prescription. A prescriptive use includes two elements - one, use by the public for a define period of time, here in New York it is ten years; and secondly, dominion or maintenance by the municipality for the same number of years. That's the essence of prescription and prescription is part in parcel of the statute, it is in the statute. I tried to explain that in my --

MR. FRISHBERG: No, I read your papers.

MR. SWEENEY: So, you need the two elements to be successfully answered.

MR. PALMER: If I may - I do have a copy of the statute streets by prescription if you would like me to read it into the record.

MR. STAHLMANN: We have gone through it but it would not hurt to read it into the record.

MR. PALMER: The actual definition is Streets by Prescription and it is Section 6-626, it is, "All lands within the Village which have been used by the public as a street for ten years or more

- PROCEEDINGS -

continuously shall be a street with the same force and effect as if it has been duly laid out and recorded as such."

MR. FRISHBERG: I guess that is what I am having trouble wrapping my arms around here, Mr. Sweeney, is that if this statute is clear on its face why do you want us to add something to it?

MR. SWEENEY: I am not asking you to add anything to it.

MR. FRISHBERG: Or are you saying we are not adding something to it, this is your interpretation of the statute and the Court's interpretation of it?

MR. SWEENEY: Not one court, but courts all across this nation have defined prescription in two aspects, prescription as to a street.

MR. FRISHBERG: Oh, no, I don't dispute that.

I totally agree with your definition of easement by prescription. But what I am having trouble wrapping my arms around is how do you get from this statute to easement by prescription?

MR. SWEENEY: Because it is in the title, prescription. It is part and parcel of the statute.

- PROCEEDINGS -

MR. FRISHBERG: Okay. So then we go back to the title argument which is -- would you site statutes 13, as I recall, and 134?

MR. SWEENEY: That is the interpretative statute, yeah.

MR. FRISHBERG: 13 and I think you said 134, Footnote 38.

MR. SWEENEY: Well, I am not sure what I said, it is in my correspondence.

MR. FRISHBERG: I did read your papers.

MR. SWEENEY: But under any circumstance, you must have prescriptive use, which is adverse use, for at least ten years by at least the general public.

So, those are the questions I think you will have to answer every one of those four questions in the affirmative. If any one is answered in the negative I think the building inspector's interpretation fails. That is it. I don't need to say anymore.

MR. STAHLMANN: Thank you. Mr. Hoover?

MR. HOOVER: I believe I said everything I needed to say last time.

MR. STAHLMANN: Okay. We have Mr. Nuzzolese

- PROCEEDINGS -

MR. STAHLMANN: And, again, that was drawn by the Village?

MR. NUZZOLESE: Yes.

MR. FRISHBERG: So, the Goshen School District does not plow that street?

MR. NUZZOLESE: It is a little bit of a peculiar thing, we plow and we go through but we end up going through their parking lot to get to the section on the other side.

MR. STAHLMANN: But basically it is the village plows that do the job?

MR. NUZZOLESE: Yes.

MR. FRISHBERG: When the street needs maintenance who maintains the street?

MR. NUZZOLESE: Our section we do, the Village does.

MR. STAHLMANN: I don't know if this is an appropriate question to ask you, I guess we all have our own anecdotal evidence - the street itself, is it a street where people come and go on based on your experience?

MR. NUZZOLESE: I believe there's through-traffic, yes. I know we use it and our garbage truck uses it.

1 - PROCEEDINGS -2 MR. FRISHBERG: Have you observed traffic on 3 the street? 4 MR. NUZZOLESE: Yes. 5 MR. FRISHBERG: Have you observed any people walking on the street? 6 7 MR. NUZZOLESE: Yes. 8 MR. STAHLMANN: And you said the Village 9 garbage trucks come up that portion of McNally? 10 MR. NUZZOLESE: Yes. 11 MR. STAHLMANN: Pass through the school 12 parking lot to service --13 MR. NUZZOLESE: To go down, to go around the 14 loop, this way they don't have to turn around and 15 go back all the way around. 16 MR. STAHLMANN: Thank you. Folks, Questions? 17 MR. CLARK: Has it been ten years though, 18 Mike, are you sure? 19 MR. NUZZOLESE: Oh, yes. Actually, God bless 20 his soul, when John Egbertson was alive we went up, 21 he had us actually -- there was a controversy with 22 the house, as you turn up the house to the right 23 the driveway is up there and that's when it was 24 decided it was going to be two-way. 25 MR. STAHLMANN: Right. Because it used to be

1	- PROCEEDINGS -
2	a one-way?
3	MR. NUZZOLESE: Right. Exactly.
4	MR. FRISHBERG: What's the history of this
5	McNally Street? Can you provide us a little
6	background? How long has it been around? When was
7	it formed? Why was it formed?
8	MR. NUZZOLESE: I've been here since 1979 and
9	it was there then.
10	MR. FRISHBERG: It was there since '79?
11	MR. NUZZOLESE: Yeah.
12	MR. STAHLMANN: I am trying to recall because
13	I know when I sat here probably about eleven years
14	ago I think the Farley house was there then, is
15	that correct?
16	MR. NUZZOLESE: Yes. That is the house on the
17	right?
18	MR. STAHLMANN: The house with the driveway.
19	MR. NUZZOLESE: Yes, yes.
20	MR. STAHLMANN: And it was at that point I
21	guess that the one-way didn't make any sense
22	anymore?
23	MR. NUZZOLESE: Yeah. It was actually Charlie
24	and Kim VanHaaster who lived there at the time.
25	MR. STROBL: They bought it in 1998. The

1 - PROCEEDINGS -2 other people bought it in September of 2007. MR. FRISHBERG: If I can ask - I think in all 3 4 fairness I think we should give Mr. Sweeney to ask 5 any questions, as well as Mr. Hoover? MR. STAHLMANN: Yes. That is where we are 6 7 going. 8 MR. SWEENEY: All right. How long have you 9 maintained the street? 10 MR. NUZZOLESE: I've been the superintendent since 1995. 11 12 MR. SWEENEY: What is the degree of your 13 maintenance, explain what you do? 14 MR. NUZZOLESE: Salting, plowing, painting the 15 yellow lines, patching if it needs it. 16 MR. SWEENEY: And there was once upon a time a 17 one-way sign, was there not? 18 MR. NUZZOLESE: Yes. 19 MR. SWEENEY: How did that disappear? 20 MR. NUZZOLESE: Chief John Egbertson wanted it 21 removed. 22 MR. SWEENEY: Was that at the direction of the 23 Village Board? MR. NUZZOLESE: I don't know. 24 25 MR. SWEENEY: When you plow the street where

1	- PROCEEDINGS -
2	do you stop?
3	MR. NUZZOLESE: We go all the way up and
4	through.
5	MR. SWEENEY: Through what?
6	MR. NUZZOLESE: Through the parking lot and
7	out the other end.
8	MR. SWEENEY: Do you have the permission of
9	the School Board to do that?
10	MR. NUZZOLESE: They no, I don't know.
11	MR. SWEENEY: You don't know?
12	MR. NUZZOLESE: We always have. We have a
13	good working relationship with the school district,
14	Jim Riley is the Superintendent of Grounds.
15	MR. SWEENEY: Has he ever given you the
16	permission to move into his parking lot?
17	MR. NUZZOLESE: Never asked.
18	MR. SWEENEY: Never asked. Okay. What about
19	the sidewalk, when was that placed?
20	MR. NUZZOLESE: I would say five or six years
21	ago.
22	MR. SWEENEY: Who did that?
23	MR. NUZZOLESE: The Village of Goshen and the
24	school district, it was a joint project.
25	MR. SWEENEY: About five or six years ago?

1 - PROCEEDINGS -2 MR. NUZZOLESE: I would say so. 3 MR. SWEENEY: So, it is not within ten years? 4 MR. NUZZOLESE: I don't believe it is ten 5 years. MR. SWEENEY: All right. I have no further 6 7 questions. 8 MR. STAHLMANN: Mr. Hoover, anything? 9 MR. HOOVER: Just one follow-up. Did the 10 Superintendent of the Buildings and Grounds of the school district ever suggest to you that you not go 11 12 through there with your plows? 13 MR. NUZZOLESE: Not at all. Let me explain 14 what happens too is, you know, if they are out 15 first they go up through and if we go out first we 16 go up through because we don't raise the plow 17 halfway up the street. 18 MR. FRISHBERG: Let me ask you this - when it 19 snows does there ever come a time when the Goshen 20 School District plows McNally Street? 21 MR. NUZZOLESE: Yeah, because they don't raise 22 -- when they get to the end of the parking lot they 23 don't raise their plow. MR. FRISHBERG: So, sometimes the Village does 24 25 it and sometimes the elementary school does it?

- PROCEEDINGS -

MR. NUZZOLESE: Most of the time the Village does it because we are out in the middle of the night but, you know, if they are cleaning up during the day they will, you know, because they wouldn't stop, they would leave a pile of snow in the middle of our street if they did.

MR. STAHLMANN: Where do they push the snow to?

MR. NUZZOLESE: They just plow through to the intersection and turn around and come up.

MR. STAHLMANN: The intersection of Murray?

MR. NUZZOLESE: Murray, yeah.

MR. FRISHBERG: So, they just leave all of the snow on the corner of McNally and Murray?

MR. NUZZOLESE: Well, you square up the intersection, yeah, you know.

MR. SWEENEY: Can I ask one more question?

Let me try to sum it up.

So, the school district, there are times the school district actually plows the road?

MR. NUZZOLESE: Yes, if they are there before us, yes.

MR. SWEENEY: How often does that occur?

MR. NUZZOLESE: Not too often because we are

	1/
1	- PROCEEDINGS -
2	out all the time in the middle of the night.
3	MR. SWEENEY: But it does occur?
4	MR. NUZZOLESE: It has happened, yes.
5	MR. SWEENEY: That's all.
6	MR. FRISHBERG: Has the school district ever
7	maintained the road?
8	MR. NUZZOLESE: No, not our section.
9	MR. FRISHBERG: McNally Street, have they ever
10	tarred it?
11	MR. NUZZOLESE: No.
12	MS. CIONE: There's other streets in the
13	Village like Kelsey Lane and Butler?
14	MR. NUZZOLESE: Yup.
15	MS. CIONE: Do you plow them, maintain them?
16	MR. NUZZOLESE: No. They are private.
17	MR. STAHLMANN: That long street that runs to
18	the back of the high school
19	MR. NUZZOLESE: Past the bus garage?
20	MR. STAHLMANN: Yes. Who maintains that
21	street?
22	MR. NUZZOLESE: The school district.
23	MR. STAHLMANN: They plow that?
24	MR. NUZZOLESE: Yes.
25	MR. SWEENEY: Can I ask one more question, and
١	II

1 - PROCEEDINGS -2 I really apologize - last one. 3 You testified that you had observed people using the street, what do you base it on? Do you 4 5 sit up there and watch? MR. NUZZOLESE: No. 6 7 MR. SWEENEY: What do you base that statement 8 on? 9 MR. NUZZOLESE: I know most everybody lives in 10 the Village and I've seen Mrs. Antellino go by and 11 wave to her. 12 MR. SWEENEY: So, you've seen one person go 13 by? 14 MR. NUZZOLESE: No. 15 MR. SWEENEY: How many? 16 MR. NUZZOLESE: I don't know. 17 MR. SWEENEY: You don't know? Is it the same as West Main Street? 18 19 MR. NUZZOLESE: Not at all. 20 MR. SWEENEY: Okay. Thank you. 21 MR. STAHLMANN: Anybody else? Mr. Hoover? Do 22 you want the last word? 23 MR. HOOVER: No. MR. STROBL: Can I just ask you a question? 24 25 MR. NUZZOLESE: Sure.

- PROCEEDINGS -

MR. STROBL: I just want to make sure I am not confused on this because we did have a lawsuit, you know, ten, twelve years ago. So, I am looking at the thing in the school, looks like it was built in 1967 or at least it says in the front and obviously we lost a lawsuit that went one way and we are looking at something similar again. My question is is when we are maintaining it in 1967, 1975, the time that they make that original decision one way or another by the judge, it wasn't like you started plowing the road after we lost the decision in the Village. So, I am trying to understand what makes this different now maintaining it in the 60s, 70s, 80s and 90s --

MR. STAHLMANN: I don't think it was the issue of that lawsuit.

MR. STROBL: Yeah, but I am saying, you know, I am not sure what has changed now, I mean, you were plowing it then. It wasn't like you just started plowing in the 90s, you were plowing in the 80s, right?

MR. NUZZOLESE: I was just talking from when I got my promotion but like from 1979 I drove the salt truck and plow truck and we always salted.

- PROCEEDINGS -

So, you don't just shut it off in the middle, you just keep the salter going but there's always been a relationship, if you would, you know, with the school district back and forth because it is kind of a peculiar type of thing because you are on our street and then you are in the parking lot and then on our street, so.

MR. STROBL: Do you know anything about how the driveway -- I mean, I've heard of things about the other driveway onto that road, do you have any --

MR. NUZZOLESE: Say that again?

MR. STROBL: The one road right there where you go up the so-called 'New McNally' there's that house that has the driveway which is facing Murray and the driveway comes off of so-called 'New McNally'.

MR. NUZZOLESE: Yup.

MR. STROBL: My understanding is that that thing got put in when before Harness Estates went in, it was a temporary and that was supposed to be moved.

MR. NUZZOLESE: I don't know about that but --

MR. STROBL: It was a temporary --

- PROCEEDINGS -

MR. NUZZOLESE: I don't know about that but I remember along --

MR. STROBL: -- because it faces Murray and the road comes out onto New McNally Street which, you know, this is before Harness Estates, which that wasn't supposed to last forever, right?

MR. NUZZOLESE: Joe lived there a long time ago, yup.

MR. STROBL: Because the painted line went in like the last year and a half?

MR. NUZZOLESE: Oh, yeah. Maybe like two summers ago.

MR. STROBL: Because I got it like two years ago where I got it off of Google where you see the line and decided the last two years -- I mean, I went up there tonight and the car blew right through the parking lot going the wrong way. There are people walking up there and everything and he just blew right through the 'don't go this way', you are supposed to go around the back of the school, he just flew right straight through the parking lot when I was up there at 5:00.

MR. NUZZOLESE: He went from McNally down to Murray?

- PROCEEDINGS -

MR. STROBL: Yes, at 5:00. Flew right through there straight. So, I mean, I am just trying to see that, you know, what has changed if we have a decision, you know, ten, twelve years ago we were maintaining it the same way before that.

MR. NUZZOLESE: Right. The only thing that is different is when they got a new principal up there for the bus traffic to try to keep the people from dropping their kids off, that's why we asked for the double yellow line, which myself and Jimmy Watt went up there and that made perfect sense to do.

MR. STAHLMANN: So, the double yellow line to keep the buses on the right side of the street?

MR. NUZZOLESE: Yeah. What they want to do is have the parents come up and, if you would, if you are coming up McNally come up the short piece, take the left and circle around and then go back out, instead of doing what you just described because that's what was happening, some people were coming one way and some people were coming the other way and then they were, you know, closing the buses.

MR. STROBL: How do I know that road is pitched the right way? Like Butler down in the Paddock, that was a private road and I think it

- PROCEEDINGS -

still is but one of the reasons was it didn't have the right pitch, it wasn't built the right way because of the drainage. Now, how do I -- I mean, are we supposed to adopt the road that I don't know has the right pitch or not just because we use it?

MR. NUZZOLESE: Well, our section is 30 feet and if the crown is in the middle on our section where you go up and starts to curve to the left, that's where you start to see where it closes in and gets skinny, but the section that belongs to the Village is 30 feet.

MR. STROBL: That would be to the specifications of the Village to approve the way things are pitched and everything else?

MR. NUZZOLESE: Right.

MR. STAHLMANN: Mr. Sherwin, I see your hand is up?

I have a couple of questions for MR. SHERWIN: Mr. Nuzzolese. Mr. Nuzzolese, you said that Chief Egbertson --

MR. NUZZOLESE: John Egbertson, yes.

John Egbertson, that he took MR. SHERWIN: down the one-way sign?

MR. NUZZOLESE: Yes.

- PROCEEDINGS -

MR. SHERWIN: Do you know if that was at the direction of the Village Board?

MR. NUZZOLESE: No, I don't.

MR. SHERWIN: Do you know whether or not the Village Board had ever passed a resolution changing New McNally Street from a one-way street to a two-way street?

MR. NUZZOLESE: Not to my knowledge.

MR. SHERWIN: As far as you know it is still a one-way street?

MR. NUZZOLESE: No, it is a two-way street.

MR. SHERWIN: When was the resolution passed?

MR. NUZZOLESE: I don't know nothing. I just met the police chief up there and he asked for the sign to be taken down.

MR. SHERWIN: When was that?

MR. NUZZOLESE: When did he die, do you know?

MS. CIONE: I think 1999, maybe 2000.

MR. NUZZOLESE: Yeah, it was before that. It was still when the VanHaaster's had lived up there, whenever that was.

MR. STAHLMANN: You think it was before 1999?

MS. CIONE: He passed away in '99.

MR. NUZZOLESE: It had to be, sure.

1 - PROCEEDINGS -2 MR. STAHLMANN: Do you remember it being Chief 3 Egbertson? 4 MR. NUZZOLESE: Oh, yeah. 5 MR. SHERWIN: The double yellow line up there, do you know how long it is? 6 7 MR. NUZZOLESE: No. 8 MR. SHERWIN: If I told you it was only 65 9 feet, would that sound about right to you? 10 MR. NUZZOLESE: I wouldn't shoot from the hip. 11 I would have to go up and measure it. MR. SHERWIN: If I could, I would like to show 12 13 you something I measured and see if this will help 14 you a little bit. It is a little diagram and 15 that's the double yellow line (indicating). 16 MR. NUZZOLESE: Okav. 17 MR. SHERWIN: This is the curb cock for the house on the right (indicating). 18 19 MR. NUZZOLESE: Okay. 20 MR. SHERWIN: So, if you see, it does not 21 start at the intersection of Murray Avenue and New 22 McNally Street, does it? 23 MR. NUZZOLESE: We never go all the way down because the traffic would cross it. 24 25 MR. SHERWIN: And it only runs approximately

1 - PROCEEDINGS -2 65 feet, if that looks about right? 3 MR. NUZZOLESE: Yeah. MR. SHERWIN: And then there's another 4 approximate 67 feet up to the curb cock to the 5 6 house on the right, so, it is a very limited double 7 yellow line? 8 MR. NUZZOLESE: Yeah. 9 MR. SHERWIN: Why did you make it only 65 feet? 10 11 MR. NUZZOLESE: Because that's what Chief Watt 12 wanted. 13 MR. SHERWIN: So, it is 67 feet before you 14 reach the house, the driveway on the right? 15 MR. NUZZOLESE: I would have to go measure it. 16 MR. SHERWIN: But that sounds about right to 17 you? 18 MR. NUZZOLESE: Yeah. 19 MR. STAHLMANN: Mr. Sherwin, do you want to 20 share with us? 21 MR. SHERWIN: Sure. I will be happy to share 22 with you. 23 MR. SWEENEY: Let's mark it as an exhibit, 24 Appellant's Exhibit 6. 25 (Whereupon, Appellant's Exhibit 6, a diagram,

- PROCEEDINGS -

was marked for identification.)

MR. STROBL: You know, that's very weird - let me just say one thing for you - I was just up there at 5:00 and where that is a two-way road at the bottom and at the top of the school technically you can't go down that thing because you can't exit that way, so, if you get that in there because I even took a photo of it. So, I mean, you can't go down that way from the school, you can't enter there.

MR. FRISHBERG: The idea is from the school parking lot you can't make a right turn onto McNally Street, can you?

MR. NUZZOLESE: Correct.

MR. FRISHBERG: But if you were a driveway though, if you had a driveway on it in theory you can make a right turn?

MR. SHERWIN: I don't think you can, I think it is a one-way street, I think that is what the Village resolution says and it has never been changed from a one-way street to a two-way street. My understanding of the law - and you can ask your counsel - unless there's a resolution by the Village Board of Trustees it is a one-way street.

- PROCEEDINGS -

MR. STAHLMANN: Hold on a second. Mike has been very generous with his time with us. Let us first focus on any other questions we have for Mike and then I am going to open up the floor up to you.

MR. SHERWIN: Can I just ask him a couple more questions about the diagram? It is has been marked Exhibit 6 and does the diagram look approximately correct as to where things are located from memory?

MR. NUZZOLESE: Sure, from memory.

MR. SHERWIN: From memory, from the curb cock to the house on the right and then the curb cock is

MR. NUZZOLESE: Is up above the storm drain.

MR. SHERWIN: Yeah, up above the storm drain up there?

MR. NUZZOLESE: Yeah.

MR. SHERWIN: So, it is a very limited double yellow line, correct?

MR. NUZZOLESE: Yes.

MR. SHERWIN: So, are you saying that the village part of the street runs up to the school property line?

MR. NUZZOLESE: It runs approximately -- you will see where there's a chain-link fence that

1 - PROCEEDINGS -2 comes down the right side, right where that 3 chain-link fence ends was the approximate line. 4 MR. SHERWIN: If I gave you a red pen can you 5 draw on this diagram? MR. NUZZOLESE: It would be approximate from 6 7 memory. 8 MR. SHERWIN: Just as best you could where you think the school property begins. 9 10 MR. NUZZOLESE: (Whereupon, Mr. Nuzzolese marks the diagram.) 11 12 MR. FRISHBERG: Mr. Sherwin, I was going to 13 say, could you use the document you gave us? 14 MR. SHERWIN: I understand that, but I am 15 asking him what his understanding is. And could 16 you put your initials on the line? 17 MR. NUZZOLESE: (Whereupon, Mr. Nuzzolese 18 initials diagram.) 19 MR. SHERWIN: So, your understanding is this 20 is the approximate area of where the --21 MR. NUZZOLESE: Yeah. If you go up there you 22 will see a chain-link fence that belongs to the 23 school. 24 MR. SHERWIN: Okay. So, you are saying that 25 the street up to the school line is approximately

1 - PROCEEDINGS -2 30 feet in width? 3 MR. NUZZOLESE: Right. MR. SHERWIN: But after that it narrows down 4 5 dramatically, right? MR. NUZZOLESE: Yes. 6 7 MR. SHERWIN: And up by the school it is about 8 20 feet, is that right? 9 MR. NUZZOLESE: This is 30 feet -- oh, by the 10 school? I don't know. Right where the crosswalk 11 is, thereabouts, yeah. 12 MR. SHERWIN: 20 feet? 13 MR. NUZZOLESE: Yeah. 14 MR. SHERWIN: So, the part of this area that 15 you are saying you take care of is up to the school 16 property line? 17 MR. NUZZOLESE: Yes. 18 MR. SHERWIN: Where you put your initials? 19 Mr. NUZZOLESE: Yes. 20 MR. SHERWIN: Then the school takes care of 21 the rest of it? 22 MR. NUZZOLESE: Yes. 23 MR. SHERWIN: So, everything above that where your initials are --24 25 MR. NUZZOLESE: Let me explain another thing

- PROCEEDINGS -

about the double yellow line too is that with the addition of Harness Estates, that intersection -to defend Jimmy Watt, like he was trying to keep people entering the intersection the proper way. For years there wasn't people coming out of that subdivision, so, it did not matter how they went, so, that double yellow line was kind of like people were just going up like too wide there.

MR. STAHLMANN: So, you are saying people were coming out of Harness Estates making a right --

MR. NUZZOLESE: Well, if they did but when they were coming out people were so accustomed, you know, it became a 'T' intersection instead of a left-hand turn. So, that kind of addressed that safety issue when people were exiting Harness.

MR. SHERWIN: One other question is in the morning, have you ever been up there in the morning when the school buses were there?

MR. NUZZOLESE: I try to avoid it.

MR. SHERWIN: Have you ever been there?

MR. NUZZOLESE: Yeah.

MR. SHERWIN: Have you ever seen the school buses block the entire street going up?

MR. NUZZOLESE: Yeah.

24 25

19

20

21

22

23

- PROCEEDINGS -1 2 MR. SHERWIN: Because they angle --MR. NUZZOLESE: Well, that's the reason for 3 the double yellow line. 4 5 MR. SHERWIN: They still do it, don't they? 6 MR. NUZZOLESE: Yeah. 7 MR. SHERWIN: Okay. No further questions with 8 regard to the diagram. 9 MR. STAHLMANN: Anything else for Mr. Nuzzolese? 10 MR. FRISHBERG: Part of it is a statement, 11 12 part of it is a question for Mike. Mike, I took 13 the C.H. Development Survey and Site Plan and I 14 started to scale 65 feet and I am not quite sure, does that 65 feet ends at the bend? 15 16 MR. NUZZOLESE: Approximately, yes. 17 MR. FRISHBERG: At the bend of it? 18 MR. NUZZOLESE: Yeah. 19 MR. FRISHBERG: Okay. That is right. That's 20 about right then. That's what I get when I scale 21 it, because that's what I was trying -- because the 22 street is at least 260 from what I can tell, is the 23 street about 260 feet? MR. NUZZOLESE: I would have to measure it. 24 25 MR. FRISHBERG: Okay. All right. But the

1 - PROCEEDINGS -2 lawn is --3 MR. NUZZOLESE: I would say it is 4 approximately, sure. 5 MR. FRISHBERG: Thank you. 6 MR. STAHLMANN: Anything else for Mr. 7 Nuzzolese? 8 MR. SWEENEY: One last question, maybe two. 9 You are aware of the 'Do Not Enter' sign at the 10 school district property at the --11 MR. NUZZOLESE: Other side. 12 MR. SWEENEY: On the other side, you are aware 13 of that? MR. NUZZOLESE: That's on the end of our 14 15 street. 16 MR. SWEENEY: You are aware of it? 17 MR. NUZZOLESE: Yes. 18 MR. SWEENEY: That means do not enter outbound 19 to Murray, is that correct? 20 MR. NUZZOLESE: My take on it is do not enter 21 the parking lot that way. That was the intent of that sign, that sign is on the end of the village 22 23 street. 24 MR. SWEENEY: Let's take a look at Exhibit 5. 25 I diagramed a 'Do Not Enter' sign at that point, is

1 - PROCEEDINGS -2 that correct? 3 MR. NUZZOLESE: Give me a minute. 4 MR. SWEENEY: It is the street coming in. 5 MR. NUZZOLESE: But where are we coming? 6 MR. SWEENEY: Murray coming up and in. 7 MR. NUZZOLESE: Oh. Okay. Yup, okay. 8 MR. SWEENEY: You are aware of that 'Do Not Enter' sign? 9 10 MR. NUZZOLESE: No, it is on the other side. 11 MR. SWEENEY: There is two, are you aware of 12 that one? 13 MR. NUZZOLESE: That's the one I thought you 14 were talking about. 15 MR. SWEENEY: No, I am talking about the one 16 that's closer to the Village property. 17 MR. NUZZOLESE: No, from memory I don't 18 remember. 19 MR. SWEENEY: You don't remember it? 20 MR. NUZZOLESE: No. 21 MR. SWEENEY: You don't know it is there? 22 MR. NUZZOLESE: I just don't remember it. 23 MR. SWEENEY: It is there. 24 MR. STROBL: Mr. Sweeney, do you want a photo 25 of it?

1 - PROCEEDINGS -2 MR. SWEENEY: So, you are aware of it? 3 MR. STROBL: I went at 5:00 and took a picture of it. 4 5 MR. SWEENEY: So, it is there? 6 MR. STROBL: Yes, sir. 7 MR. SWEENEY: Then I am going to ask him a 8 rhetorical question - how can a street be a two-way 9 street when it is one-way coming out of the school 10 district's parking lot? 11 MR. FRISHBERG: Well, it is an odd street. 12 MR. SWEENEY: Have you ever seen a street that 13 is halfway two-way and halfway one-way? I haven't. 14 MR. HOOVER: Does anybody know who put that 15 sign in 'Do Not Enter'? Was it the school 16 district, was it the Village? 17 MS. CIONE: It has always been there. 18 MR. HOOVER: I don't care if it has always 19 been there, somebody put it there, it didn't grow 20 there. MR. NUZZOLESE: I can't answer that. 21 22 hasn't been put up since I have been in charge. 23 MR. FRISHBERG: When it comes to putting stuff up do you take your directions from the chief of 24 25 police?

1 - PROCEEDINGS -2 there? 3 MR. NUZZOLESE: Yes. MR. PALMER: And in addition to the sidewalks 4 I noticed there was a drain that go along the 5 street there? 6 7 MR. NUZZOLESE: On the left-hand side going 8 up. 9 MR. PALMER: Right. And was that installed by 10 the Village, do we know? 11 MR. NUZZOLESE: I think it was installed when 12 the street was constructed. 13 MR. PALMER: Okay. And as far as you are 14 concerned, again, you have witnessed passersby and 15 you witnessed through-traffic? 16 MR. NUZZOLESE: Yes. 17 MR. PALMER: The Village has microsealed the 18 road? 19 MR. NUZZOLESE: Yes. MR. PALMER: And it would be evidence that the 20 21 Village has assumed control of this village road? 22 MR. NUZZOLESE: That section. 23 MR. PALMER: That section of the village road? 24 MR. NUZZOLESE: There are two sections, on the 25 bottom and on the top.

- PROCEEDINGS -

MR. PALMER: So, there's been use for more than ten years, public use by more than ten years?

MR. NUZZOLESE: Yes.

MR. PALMER: And it has been assumed by the Village to maintain that section of the village road?

MR. NUZZOLESE: Yes.

MR. PALMER: All right. Thank you, Mr. Nuzzolese.

MR. STAHLMANN: Mike, thank you very much. We appreciate your coming. Thank you.

I am going to open up the floor for anyone who has any final comments. Anybody in the public that has anything to add? Anybody who wants to make a point? Sir, please, tell us who you are.

MR. PETRAGLIA: My name is Nick Petraglia. I live in the Village on Murray Avenue, 185 Murray Avenue. I cannot understand how we have a street in this Village that is two-ways part of the way and one-way the other part of the way. Something is wrong and I don't believe the accidents that could happen there as a consequence of that weird kind of traffic control. I think we should straighten that out. If we are going to let that

3

- PROCEEDINGS -

be a public street it should be two-way all the way or one-way all the way. I hate to think of the consequences of letting it persist in its present structure.

MR. STAHLMANN: Thank you, sir. Okay. Let me go around the horn. Lynn?

MS. CIONE: Well, at the risk of possibly -- I don't know what the risk would possibly be called. As a witness I was on the Village Board and I think part of the reason was that that one-way street became a two-way was because of the driveway that was there because there's a driveway that jets out into that street, so, there would be no way for them to get out of that street, they would've had to go back into the parking lot of the school. So, if my memory serves me correctly I think that may be the justification for that because that was the only house that was there for a very long time prior to Harness being built. But other than that, I don't have any other questions, except that I use that street all the time, so.

MR. CLARK: Like I said last week, Mr. Sweeney has made a good case, but I can't see how we can overrule it or to prove it, I believe, that it has

23

been in existence for more than ten years and used by the public.

MR. STAHLMANN: Okay. John?

MR. STROBL: I get this juggling ball kind of like I mouthed off last meeting about, you know. The interesting thing is you have a private piece of property in between the road and that's making it difficult in between it being two-ways. I still have a question about the one on the corner of McNally Street where Harness goes in because I did talk to a lawyer that was on that case and he told me it was a temporary driveway before Harness went in, and we do that in some of those streets in Goshen. I think there is one up near the Hooker School behind where those four or five buildings are back there, I don't think that road is an official road and we have houses in there. So, it seems like we do that so the builders can proceed and I understand some of that but I am getting that this one possibly was a temporary until Harness got built and if we are doing that I don't see how we follow that up and that's part of our problem. Like last meeting when we were talking I said I pretty much consider that road like the road to the

3

high school and it is maintained by the school and there were no driveways on it. Well, we do have a driveway on this one, I am not sure it is legal, I mean, it is not what we are looking at but it is part of our problem. If that wasn't there, you know, it would solve something. Like I said, I went up at 5:00 and where that stop sign is or where the 'Do Not Enter' is, which is on private property, the guy just blew right through there, there is an arrow going right through the parking lot and now we can't control what the school, that's a problem I don't know how all of us solve because I don't consider that McNally street, it is somebody's private parking lot, we can't rule that as the Village. So, then the school gives us this part of the road, I am not sure what I've seen has changed from the last lawsuit. I mean, we were maintaining the road then, we were plowing the road since 1967 when the school went up and we lost the So, I am not sure why I see that driveway case. there which is being part of the problem we are all seeing because it is a two-way road, I am not sure if it was ever legal to begin with.

So, I am really looking at the thing saying I

25

- PROCEEDINGS -

don't see what changed from when we lost the lawsuit ten or twelve years ago. So, that's my way of thinking, I am sorry but that is the way I am going.

MR. FRISHBERG: I think I start with the statute which is I think, "All lands within the Village which have been used by the public as a street for ten years or more continuously shall be a street with the same force and effect as if it had been duly laid out and recorded as such." So, the next thing I have to ask myself, has this been used as a street for ten years and what I am hearing from Mike is it has been used as a street, it is plowed as a street, maintained as a street, people walk on it like a street. I mean, it is true, he couldn't name more than one person who walks on that street but I can tell you I jog on that street, it is one of my jogging routes, I driven on that street into the middle school to pick my son up and, so, I personally have used that street. So, I think of it as a street. I am aware of -- I think that's the beginning of the inquiry. The other issue I think we have to address is Mr. Sweeney's argument as to whether or not it has to

be an easement by prescription which would mean it has to be adverse and that goes back to his title argument. And I did look at Section 13 of the statutes and that does not say that the title to the statute needs to be incorporated by reference, it is used to give someone a sense of what it is about but I don't see that it adds to the statute. I think you have to read the statute at face value, unless it is an ambiguity and I just don't see an ambiguity in the statute. So, the only issue in my mind is it has been used as a street for ten years.

The next issue is a little more sticky to me because I don't know the answer to that, whether or not the sidewalk issue affects our decision. Does McNally Street run to the gore, does it run to the sidewalk. I am not sure on that and I have to look a little bit more on that and I would like our attorney to chime in on that as well. That's a more difficult issue to me because the sidewalk — if you say the sidewalk and McNally Street are inextricably intertwined and are one of the same, then the sidewalk hasn't been there for ten years, so then what do you do? Because there is this ten year rule. I am not sure if they are inextricably

25

intertwined or if they are just totally different, I am not sure. I am having trouble wrapping my arms around that and when I did a little bit of research on it I didn't find a clear answer to it. But if you are looking for my initial reaction and I am open to change - is that it is a street and I think when C.H. Development bought that lot it was zoned -- I think it was zoned R-1, right? So, they had a reasonable expectation they could build a building on that lot, it seems to me that they had a reasonable expectation they could build a house on that lot. They bought it for the purpose of building houses. The driveway that's proposed goes to the two-way portion of McNally Street so you can make a right turn out of it. it a screwy street? Absolutely it is a screwy street, I have never seen a street like it. But does that mean it is not a street - I don't think so, I think it is a street. Sort of like a duck, if it looks and quacks like a duck it is a duck. So, my initial reaction is it is a street.

As to John's comment, I remember reading the case and in that case ten years ago the ZBA never took any testimony as to whether or not it had been

- PROCEEDINGS -

used as a street. So, to the extent the ZBA made a mistake or perhaps they didn't think they had to, whatever it was --

MR. STAHLMANN: The ZBA never made a decision.

MR. FRISHBERG: Right. They never made a decision, they never reached that issue. The Village Board never reached that issue. So, since they never reached that issue I don't think it is binding on us. The answer is what has changed, I guess what's changed since then is we now have testimony before us that it was used as a street and the Village Board didn't have anything.

MR. STROBL: I haven't seen that street on a map or on a list. I mean, it says McNally Street, that is like saying the New York State Thruway, do you mean Rochester, I am in Goshen, I mean, where am I? I haven't seen the dimensions of where McNally Street, does it go from 1 McNally Street to 13 McNally Street, and then skip and go from 20 McNally Street to 50? I have not seen the list and you have to have it on the list or a map to prove it.

MR. STAHLMANN: One other question that I asked last meeting was whether or not that portion

- PROCEEDINGS -

of McNally Street was submitted to the State for State funding. And I know Mr. Sweeney's argument that's not what we rely on but if you ask me is that portion of McNally Street listed with the State of New York as a public road, the answer is, yes.

MR. STROBL: McNally Street or New McNally Street?

MR. STAHLMANN: Both sides of it.

MR. STROBL: But the gap in the middle and those dimensions, do we have the dimensions? Or is it all McNally Street?

MR. STAHLMANN: I don't have it in front of me. That's what I am saying.

MR. STROBL: And can we do eminent domain on our own property? I mean, I think Mr. Sweeney was asking that last time and I've been reading that and I am not sure if you can legally eminent domain the property that you used to own, I don't see it, I am sorry.

MR. FRISHBERG: If you make the determination that an easement by prescription is the standard why which we have to abide by, he is right, he's right, he's absolutely right. But I am not

7

8

9

10 11

12 13

14

15

16

17

18 19

20

21

22

23

24

25

convinced that is our standard. I am convinced the standard is in the statute, not in the common law of virtual easement by prescription where you have to have an adverse claim. I don't read the statute the same as Mr. Sweeney.

MR. STAHLMANN: Anything you want to add, Mr. Palmer?

MR. PALMER: If I may, Mr. Chairman. The Court of Appeals, which is the highest court in the State of New York has append on ultimately - it is not a finite test - but it does append as to how one should review whether or not a village street is a village street and it focuses on the language of continuous public use from the village assuming control of the street during that ten year continuous use. There is no reference to the word prescription in the title, the cases have interpreted it to be continuous use for ten years, as well as assuming control.

MR. FRISHBERG: Which case is that?

MR. PALMER: That would be the Impasto Village of Catskill's case, that was submitted by Attorney Gaba, my associate. And it also sites a number of other Second Department case law which would be

binding on this jurisdiction if it were to go to Supreme Court and identified, again, continuous public use for ten years and assumed control being the ultimate determining factors. There is no reference whatsoever to the word prescription all be it in the title of that subsection. And to address the Board Member's troubles comments with respect to the former case, it did address two pieces of, I quess, the matter that we have addressed here before this Board, one of which was this was a village street based on the Village Board resolution. The Village Board did not follow the protocol as outlined in the Village Law which identifies the public hearing and specific requirements to lay out a street. That was not followed by the Village Board. The determination that was made was ultimately whether or not that determination that they made was proper, and it also addressed - although it is sort of dicta that it wasn't by prescription. But as Member Frishberg said, this was also that they didn't have the Superintendent of Highways there to for the record prepare any additional information.

So, there are a number of factors to consider

3

12

13

14

15

16

17

18

19

20

21

22

- PROCEEDINGS -

but ultimately to answer your question, the Court of Appeals and the Second Department have append specifically at its continuous public use and assuming control and a number of factors could be considered that being the use of the road, and again, evidence by the microsealing, testimony specifically from the superintendent was used within the Second Department to determine whether or not that could be considered a village road. There are a lot of factors but, again, it is for the Board to determine if that is, in fact, public use, but it did not focus on the prescription or easement by prescription which is, again, common law which is in existence before the statute. was in that report for this specific subsection, which is ultimately village road by user but it is titled otherwise. MR. FRISHBERG: What about the argument which

MR. FRISHBERG: What about the argument which is what I am having trouble wrapping my arms around that Mr. Sweeney has made that assuming it meets the criteria of 6-626, what about the fact that the property does not have actual frontage on McNally Street?

MR. PALMER: The village law does not

- PROCEEDINGS -

specifically speak, it does have a corresponding component to Town Law 280-A, which identifies that you do need frontage on a village street. again, it is a determination for the Board to make. Another question that you were going to request to present to Counsel was whether or not a sidewalk could be considered part of the village road. did present in that same response to the Chairman, the specific case does identify that the traveled way is part of what could be considered the village street which could include sidewalks.

MR. FRISHBERG: Well, that's my trouble with The sidewalks have only been around for six years, so, you obviously can't take control of it for ten.

MR. PALMER: Again, the traveled way constitutes for the shoulder, the shoulder itself can actually be considered that. The sidewalk is just another evidence of that. But, again, another Board determination as to that continuous use.

MR. STROBL: It is not the total width of your blacktop because like if you are working for a utility company, they measure from the middle of the road and I think the highways used to be from

- PROCEEDINGS -

the middle of the road, it was like 20 feet in so they can put telephone poles and everything else in. So, even though it is your grass front lawn they have to put a telephone pole there. So, you got that so-called automatic 'right-of-away' so that you can do utilities or power to your home and all of that even though the power company committee knows it is your property.

MR. STAHLMANN: Before I close the public hearing I would like to hear from the public.

MR. LOBREGLIO: My name is Len Lobreglio and I live at 183 Murray. What I've heard is evidence that it has been used by the public, I can say all of those exact same things about that road that goes up to the high school. I've jogged on it, I've jogged around the track.

MR. STAHLMANN: But the Village does not maintain it.

MR. LOBREGLIO: No, I am just saying, I've walked on that road, I've been on my way to the mall and forgot something at home and went back and came around. Just about anything you can say to argue that that road going up to the middle school or to the intermediate school is a public road as

well.

not maintain it.

MR. STAHLMANN: Except that the Village does

MR. LOBREGLIO: But as John pointed out that that road has never been maintained and that road always has. So, again, you know what I mean? In terms of its use by the public they are the same thing. You know, that road has been maintained and taken care of since the 60s as far as I've heard here. Like I said, I am a resident of only 30 years, so, I don't know, but.

MR. STAHLMANN: Thank you very much. By the way, I live on Winston Drive and Mr. Jones was on the Board back in the 90s when I was appointed to this Board so I had to meet with him in order to have my seat and he said, "Where do you live?" I said, "Winston Drive." He said, "Oh, those are new houses." "Well, they are 25 years old." He says, "Yeah, they are the new houses."

MR. SHERWIN: Is anybody aware that the Village Board passed the resolution changing the street from the one-way street that we saw the resolution in the minutes from, I think, 2001 to a two-way street? I have never seen anything like

- PROCEEDINGS -

I talked to one of the attorneys for the that. Village and they were not aware of any resolutions from the Board changing that street from a one-way to two-way - that's my first question. Question number two is - it seems what we are talking about, and I agree with John, that this street or driveway is in three parts, assuming all of these arguments are going against Mr. Sweeney's argument, are we saying the Village part of the street is up to the school property and then it is on the other side of the school property but then you don't have the village street going through the school property? I think this is a real problem here, I don't think you can make the school property a village street no matter what you do. MR. STAHLMANN: We are not being asked to name

MR. STAHLMANN: We are not being asked to name the school property as a public street, we are being asked to deal with this - what you want to call - New McNally Street.

MR. SHERWIN: So, are we saying then that the issue is where Mr. Nuzzolese drew the line on the drawing and put his initials?

MR. STAHLMANN: I am not relying on Mr.

Nuzzolese's initials on your piece of paper if that

is what you are asking.

MR. SHERWIN: Or on the survey map, Exhibit 5, are we saying up to that school line, that's the part that is an issue? How does one then go through the school property? And the third part I want to make - if the Village of Goshen wanted to make this a public street don't you think they would've addressed it in the last twelve years? Why is the ZBA faced with this type of decision without a public hearing which required to make a street a public street and trying to make this very difficult decision without all the public input, without the school's input, without the police chief's input, like they did in the last situation. So, I just think that we are going about this -- we are kind of like trying to back into this like they tried to do ten years ago and I can tell you, I don't think that the courts are going to favor that backing in. I think if the Village wants this to be a public street they should address it, take it face on, head on, have the Village Board meeting, have a public hearing, have testimony of the police chief, the school superintendent, principal and people that are involved so that it is clear what

- PROCEEDINGS -

all of the issues are. So, I just think that the Board is being placed in a very untamable position which you shouldn't be placed in and I think that for the Board to make this determination is inappropriate and I don't think you should be asked to.

MR. STAHLMANN: Thank you.

MR. SWEENEY: One last statement. I want to put a sticky on that and make it Appellant's Exhibit 7. That is the questions I put in front of you.

(Whereupon, Appellant's Exhibit 7, a packet of questions, was marked for identification.)

MR. SWEENEY: I will just say one word - I think Mr. Sherwin has summed it up. The matter before you is for the Village Board, it is not for you. Thank you.

MR. HOOVER: And I would like to say one word - but it was brought to you. And unpleasant as it might be, the decision now rests in your lap.

MR. STAHLMANN: Yes, sir. Thank you all. Can I please have a motion with regard to the public hearing?

MR. FRISHBERG: I will make a motion to close

1 - PROCEEDINGS -2 the public hearing. 3 MR. STROBL: I second that motion. MR. STAHLMANN: All in favor? 4 5 MR. FRISHBERG: Aye. 6 MR. STROBL: Aye. 7 MR. CLARK: Aye. 8 MS. CIONE: Aye. 9 MR. STAHLMANN: Can I have a motion with 10 regard to the question before us? 11 MR. FRISHBERG: Let's bring the question 12 before us. What's the question before us, because we have Mr. Sweeney's sheet. I agree with most of 13 14 his questions except for number -- I disagree with 15 the use of the word adverse. 16 MR. STAHLMANN: Hold that thought. Let me do 17 it this way. Let me get to the original 18 application. 19 MR. FRISHBERG: We consider this de novo, 20 right? It is de novo, this determination, correct? 21 MR. PALMER: Yes, correct. 22 MR. STAHLMANN: What we are being asked is a 23 very simple question. What the relief being requested by the applicant is to annul the building 24 25 inspector's issuance of a building permit to allow

- PROCEEDINGS -

for the construction of a single-family dwelling at premises located at 14 McNally Street. That's the question before us. Are we annulling the building inspector's issuance of the building permit or are we affirming the building inspector's issuance of the building permit? That's the question before us. These other things are legal arguments that get you to where any of you need to go but the question and the resolution is a simple one, and the simple question is are we annulling the building inspector's issuance of the building permit or are we affirming the issuance of the building inspector's permit?

MR. FRISHBERG: That turns on whether McNally

MR. FRISHBERG: That turns on whether McNally Street has been a street for ten years under control of the Village? At least that is my view of it.

MR. STAHLMANN: But the question is a simple one. Do we have a resolution with regard to that?

MR. FRISHBERG: I will make a motion to affirm, I guess, the building -- or not to annul, I guess that would be the better way to say it.

MR. PALMER: It would be to affirm.

MR. FRISHBERG: I will make a motion to affirm

the building inspector's issuance of a building permit.

MR. STAHLMANN: Do I have a second?

MS. CIONE: Second.

MR. STAHLMANN: All in favor?

MR. STAHLMANN: Aye.

MR. CLARK: Aye.

MR. STAHLMANN: Opposed?

MR. STROBL: (Whereupon, Mr. Strobl raised his hand.)

MR. STAHLMANN: Four votes to one. That's where we are. Thank you all for hanging in there for two meetings and thank you for your time.

(Proceedings concluded at 8:29 p.m.)
